

Cut the fuselage from 6 blocks of 6 cm thick blue foam. You'll need 2 blocks each of the following dimensions:

Nose section; 122,1mm x 123,9mm.
Mid section; 274,3mm x 142,2mm.
Tail section; 421,1mm x 152,0mm.

Draw the centerlines on these blocks according to the drawing. First cutout to make is for the wingsaddle. Position the outside template 6mm below the centerline and the inside template 20mm above the centerline. This will provide the right dihedral and incidence angle. Be sure to cut a left and righthand side.

To cut the parts of the fuselage, use Former F1 & F2 on the nose section, F2 & F3 on the mid section and F4 & F5 for the tail section.

Position 3mm ply firewall according to the size of your engine.
There should be a space of 12,5 mm between propellor and cowling.
All tailsurfaces are 4mm medium grade balsa. Tailcone is carved from scrap balsa.

(Verwendungsbereich)	(Zul. Abw.)	(Oberfl.)	Maßstab 1:1	(Gewicht)

The diagram consists of several geometric elements. A vertical red dashed line intersects a horizontal black line. At the point of intersection, there is a small black square. The region above the red line is filled with light gray diagonal hatching. The region below the red line is filled with light gray cross-hatching. In the background, there is a large, dark gray, semi-transparent arch shape centered on the red line. The entire diagram is set against a white background.

This technical drawing illustrates the planform of an aircraft wing. The main outline is a black line. A red dashed line represents the chord line, which is inclined at a +1.5-degree angle relative to the horizontal baseline. A vertical red dashed line indicates the leading edge position. A horizontal cyan dashed line marks the trailing edge position. A small circle with a cross-hatch pattern is located near the leading edge. A dimension line with arrows shows a width of 25 mm between two vertical red dashed lines. A note states: "Wing incidence angle is set to +1.5 degrees".

This image shows a blank template page. It features a large rectangular frame at the top and a smaller one at the bottom. A watermark on the right side contains the text "Winsa delle Template".
