SPITFIRE MK XVI

SPEED 400 Electric Scale
 29" span (0.75m)
 Alex Pedashenko – VH2059

August 1997

NOTES

1. General outline is accurate.
2. Formers are not accurate
3. Formers drawn for ease of building
4. Increase scale X 1.25 for 1/12th scale combat
5. For combat use .15 plain bearing engine - DS15.
6. Build very light - can carve out blue foam - cover in brown paper and white glue - dissolve blue foam for a very light fuselage
7. This mark and the MK XIV were the prettiest Spitfires.
8. MK XVI had the American Packard Merlin engine
9. Experienced builders only please!!
